TARIK EGE EKEN

ML Engineer based in Paris, France — Multimodal Language Model Training Specialist
FR: +33 6 95 83 72 07 | TR (): +90 536 486 87 86 | egeeken.tr@gmail.com | linkedin.com/in/TarikEgeEken | egeeken.github.io
Fluent Languages: English, French, Turkish.

EXPERIENCE

Machine Learning Engineer Intern — Moments Lab Paris | 2026
VLM fine-tuning & MLOps · AI video-discovery platform (clients include Warner Bros. Discovery, Amazon Ads, Hearst, TF1)

- Built a state of the art MLOps pipeline automating and scaling VLM LoRA fine-tuning on AWS (SageMaker, ECR).
- Implemented synthetic data generation and model distillation to improve video comprehension for specialized client use cases, improving accuracy while massively reducing memory and compute costs.
- Designed robust data-ingestion and analysis pipelines on MongoDB and S3 for large-scale video databases containing millions of shots. Designed a fast, clean visual UI dashboard for human monitoring and control of dataset preparation.
- Developed a Reinforcement Learning training stage to incorporate human feedback into model fine-tuning.

ML Expert Data Annotator, Independent Contractor — Outlier AI Remote | 2025

- Refined LLM behavior by providing high quality feedback and detailed corrections for RLHF.

PROJECTS

Probabilistic Brush Compression (.pbc) — Independent Research
Demo: egeeken-pbc.hf.space

- Designed a hybrid lossy image-compression algorithm: an encoder relying on RL-trained neural networks, paired with a lightweight, purely algorithmic decoder.
- Outperforms JPEG at extreme low bitrates while encoding faster than AVIF and JXL, without the high memory cost and decoding overhead of alternative AI-based codecs.

PersonaSFT — Independent Product Development

- Built an end-to-end pipeline for LLM base model post-training using data requests from various services; augmenting data through synthetic reconstruction, automated quality filtering and multi-stage fine-tuning on AWS cloud services.
- Optimized the pipeline for lower costs, higher performance and better alignment and authenticity.
- Deployed a bot with integrated feedback collection, for evaluating conversational quality, authenticity and alignment.

Active Perception Using VLM — ISIR (Institute of Intelligent Systems and Robotics)

- Applied multimodal vision-language models to robotics tasks, under the direct supervision of the institute's director.
- Built a real-time voice/image interface for local VLMs using FastRTC, Gradio, and Ollama.
- Evaluated and benchmarked open-source and SOTA models' abilities in various tasks of active perception.

TECHNICAL SKILLS

Languages: Python (PyTorch, NumPy, Pandas), Java, C, C#, SQL, Shell, OCaml, JavaScript, MIPS Assembly
LLM: Vision-Language Models (VLM), LoRA fine-tuning, Distillation, RLHF, Transformers, vLLM, LangChain, Hugging Face
MLOps & Cloud: AWS (SageMaker, S3, ECR, Bedrock), Docker, MLflow, Git, MongoDB, Gradio, HF Spaces
Media & Creative: Adobe Premiere Pro, After Effects, Edius, Photoshop, DxO Photolab, Illustrator; Unity, Godot

EDUCATION

M.Sc. Computer Science (with honors) — Sorbonne University 2024–2026
AI2D program (specialization in Artificial Intelligence)
Supervised / Unsupervised / Reinforcement Learning, Multi-Agent Systems, Image Processing, AI for Robotics, Multimodal AI Adaptation, Optimization, Probabilistic Statistics, Linear Programming.

B.Sc. Computer Science (with honors) — Sorbonne University 2021–2024
Data Structures & Algorithms, Data Science, Concurrent Programming, Databases, Computer Architecture.

Scientific Baccalaureate (with honors) — Istanbul Saint Joseph French Highschool 2016–2021

OTHER SKILLS AND INTERESTS

- Co-founded and administrated AMEVS, a student association for music and charity, and won the **2024 Institut de France Grand Prix** of **€100,000** in funding.
- Classical Violin (Violin 1 in the Paris Inter-University Symphony Orchestra), Piano, Drums
- Chess (top 2.5% worldwide), Speed Typing (top 0.3% worldwide)
- Video Editing (2+ years of professional experience), Photography, Photo Editing, Graphite Sketching
- Scuba Diving (Certified CMAS * and PADI Advanced Open Water Diver)
